

BRCGS Food Safety Certification

Website Statement

Selected phosphate products supplied by YANTAI CHEMICAL are available from a manufacturing facility audited to the BRCGS Global Standard for Food Safety, Issue 9. The audited facility achieved Grade A under the applicable certification.

Covered Products

Product	Certification Coverage
Sodium Tripolyphosphate / STPP	Covered by the certified production scope
Sodium Acid Pyrophosphate / SAPP	Covered by the certified production scope
Tetrasodium Pyrophosphate / TSP	Covered by the certified production scope
Monosodium Phosphate	Covered by the certified production scope
Disodium Phosphate	Covered by the certified production scope
Trisodium Phosphate	Covered by the certified production scope

Certification Scope

The certified scope covers the production of the listed phosphate products, including neutralisation reaction, drying and polymerisation, with finished products packed in paper-plastic compound bags or plastic bags. The certificate lists no exclusions from scope.

Certification Status

The applicable manufacturing facility has achieved Grade A under the BRCGS Global Standard for Food Safety, Issue 9.

Website Use Note

For public website use, supplier name, plant address, BRCGS site code, certificate number, audit details, QR codes and other traceable factory information should not be disclosed.

Document Availability

Current certification status may vary by product and manufacturing source. Please contact YANTAI CHEMICAL to confirm the applicable BRCGS certification and request the latest supporting documents.
