

U.S. FDA Food Facility Registration

Website Statement

YANTAI CHEMICAL can supply products from a manufacturing facility that is registered with the U.S. Food and Drug Administration under the applicable U.S. food facility registration requirements.

Registration Scope

The supporting registration document confirms that the manufacturing facility is registered with the U.S. Food and Drug Administration pursuant to Section 305 of the U.S. Public Health Security and Bioterrorism Preparedness and Response Act of 2002.

Important Clarification

This is a food facility registration. It should not be presented as FDA product approval, FDA product certification, or as a certificate issued by the U.S. FDA. The supporting registration certificate was issued by a third-party service provider to confirm the facility's registration status.

Website Use Note

For public website use, the manufacturing facility name, address, FDA registration number, U.S. registration agent, D-U-N-S number and other traceable supplier information should not be disclosed.

Document Availability

Current registration status should be confirmed before use for a specific order or market. Please contact YANTAI CHEMICAL to request the latest supporting registration documentation.
