

ISO 22000:2018 Food Safety Management System

Website Statement

Selected food-grade phosphate products supplied by YANTAI CHEMICAL are available from qualified manufacturing facilities operating under an ISO 22000:2018 certified Food Safety Management System.

Certification Scope

Production of Food Additive Phosphates. The certified system is based on food-chain safety management requirements and includes HACCP-related food safety controls.

Certification Status

A current ISO 22000:2018 certificate can be provided for the applicable manufacturing source.

Website Use Note

This is the primary ISO 22000 certificate statement. The corresponding IQNET document may be treated as supplementary recognition.

Document Availability

Current certification status may vary by product, grade and manufacturing source. Please contact YANTAI CHEMICAL to confirm the applicable certification and request the latest supporting documents.
